GOLD COAST APARTMENT

For an apartment on Chicago's Gold Coast, Darcy Bonner & Associates designed contemporary interiors that set classical detail against a sharper, modern edge. A deep dentil cornice and paneled doors meet black steel-framed glass doors, mirrored surfaces and a disciplined palette of charcoal, bronze and cream.

In the living room, a mirrored cast glass and bronze surround carries a pair of gilded sconces above the fireplace. Glazed steel doors open to a study in deep charcoal, where ebony built-in shelving frames the desk, and the dining room beyond is hung with charcoal curtains beneath a crystal chandelier. Between them, a bar of dark cerused wood keeps the glassware behind glass-fronted doors.

BAKING

In the bedroom, charcoal walls, a Macassar ebony upholstered headboard and a marble-topped night table keep the palette dark and enveloping.

The kitchen is the most open room, with a stainless steel range and hood, white marble counters, gray subway tile and open shelves of polished nickel silver against cabinetry in a deep red-brown wood. In the bedroom, charcoal walls, a Macassar ebony upholstered headboard and a marble-topped night table keep the palette dark and enveloping.
