LAKE FOREST ESTATE

The Lake Forest Estate brought Darcy Bonner & Associates the 2015 Acanthus Award for Excellence in Interior Design.

The entry hall sets a quiet key, with plaster walls in a soft, mottled finish, a pale stone floor and a stair that curls up along the wall. Beyond it, a sitting room is wrapped in upholstered panels of warm leather, with a mirrored fireplace surround and modern paintings and drawings hung close together on the tailored walls.

The dining room is drawn in silk and shadow. A gilded surround of cast glass molding by Mattaliano frames a fireplace of black marble, hammered gold sconces by Hervé van der Straeten flank a bright abstract canvas, and a van der Straeten chandelier of looping dark bronze hangs from a lustrous domed ceiling. In the living rooms, dark-stained paneling and pale stone floors set off cream upholstery, and in the family room a pale stone fireplace is set into a wall of dark bronze panels.

The private rooms are lighter. In a round bath beneath a shallow dome, a stone-clad tub stands between glazed doors that open to clipped hedges; a dressing room is finished in pale, polished wood; and the kitchen pairs white marble with dark, open-grained wood and glass cabinets framed in dark metal, its doors opening straight to the garden.
